Report on discipline was read by Bro. C T Carmichael, and spoken to by him and adopted.

Discipline.

The power of a church to win souls for Christ, depends on that portion of its membership whose lives are bright with loving obedience to God.

The church which fails to train, controll, correct and chasten its members into strict observance of all Christ's commandments, can never hope to achieve the crowning success for God's glory that He demands.

It is the duty of each of the more elderly members to diligently care for those who have newly been born into Gods Kingdom and see that they are immediately given and instruction to the bearing of fruits of righteousness. Those disobediant members

ers, in helping them to prepare for the work whereunto they have been called.

In concluding this report we would add with emphasis that this association ought to respond liberally to this cause, and become fully identified in this, as well as in every other good word and work.

Respectfully submitted.

Report on Sunday School was written by J R Hitt, and read by N R Drummond, and spoken to by Bros. N R Drummond, R A McDowell, A A Bryant, C T Carmichael, J C Parker. On motion adopted.

Sunday Schools.

Interest in Sunday School work continues to have a steady growth among our churches. Almost all the churches in the Association now have Sunday School work going on for 12 months in the year. The schools are better graded than ever before, our teachers are becoming more efficient by attending conventions, encampments, etc., and by reading books gotten out by the Sunday School Board and offered to us in the Teachers Training Course.

Our South Miss. Encampment held another session at Hattiesburg last summer, and a very interesting and enjoyable program was given. This institution is doubtless destined to be a great factor in the development of our Sunday School work.

The Marion County Sunday School Convention, organized one year ago, has held its first session at Foxworth. District Conventions have been organized for the various beats of the county, and these organizations have held meetings on the fifth Sundays during the year. The work of these conventions, if faithfully performed, will result in great good.

While the Sunday School work in our Association is more satisfactory than it has been in the past, yet there is much needed improvement. With our field sec-

retaries, Brethren Byrd and Holcomb, pressing the work, and with the help of the encampment, conventions, etc., there is reason to hope that the next few years will show much more advancement.

The teacher training work is very important. Numbers of teachers and other persons now have in hand the books, or at least some of the books, given in the Teachers Training Course. Your committee would recommend that our beat conventions and county convention give greater stress to the teacher training work in their programs, and that special efforts be put forth, not only to get teachers to read the books of the training course, but also get them to do the work required for the diploma given by the Sunday School Board.

Respectfully submitted,

J. R. Hitt.

Report on apportionment was read by J E Davis, and adopted:

Closing prayer by J. Q. Langston.

Thursday Morning.

Song service and prayer by Rev. J L Watts.

Minutes of previous day were called for by Moderator
and read by Clerk and approved.

Report on State Mission was read by Rev. T. D. Cox,
and spoken to by brethren T D Cox, N R Drummond, C
T Carmichael. On motion adopted.

State Missions.

By State Missions we mean that mission work with-
in the State limits. It is the "Judea" of Acts 1:8.

This work is done by the Baptist State Convention
through a committee, or Boord, composed of 27 mem-
bers of which Dr. A V Row of Jackson, Miss. is (Cor.)
Secretary. These 27 brethren are elected by the con-
vention, from different parts of the State and meet an-
nually to plan the work for each succeeding year.

The Board assists the work in at least five ways:

1. By helping weak churches build church houses,
2. By helping weak churches pay pastors,
3. By helping weak churches build pastor's homes
4. By sending missionaries into destitute places,
5. By establishing S S and making other S S's
better.

Of the 1,800,000 people of Mississippi, about 360,000

are church members and about one half of these or 180,000 are baptists. What a responsibility, brethren, is on us. The Board is now helping pay the pastors salary in 183 churches in our state. 495 churches once helped are now independent.

The State Convention now has on the field 2 S S secretaries, brethren J E Byrd and Edgar Holcom, who are kept busy going over the state working in the interest of Sunday Schools and in other ways hastening the kingdom of God.

State Missions is fundamental work. It is the base of all mission work, the stake to which the cords are fastened to reach to the utmost parts of the earth.

The fact that its work is right at our doors inspire us to greater efforts in our Lord's work abroad. Bedim the light at home and it reaches not so far.

One cannot be a true patriot and not have part in the work.

We must hold what we have and we must get more Brethren, open your eyes to the 1,440,000 unevangelized people of one State. What a condition! Some of these are within the limits of our Association and we must look after them and bring them to Christ.

The opening of the Panama Canal is going to flood our state with a class of people who need the gospel and we must fortify ourselves with the truth of God and ever be ready to hold up the Banner of our Redeemer and take the state for Christ and gain a victory of which we shall be justly proud.

T. D. Cox, Ch. Com.

PUBLICATION-- It is just as important to see that the mind has wholesome food as it is to see that the body has its proper supply of wholesome nourishment. A great deal of the mind's supply of food is obtained from the printed page, therefore we should be careful as to what kind of literature we read. The head of every family should see to it, that nothing but clean literature come into the home. As christians we should provide ourselves with such publications as shall be most helpful in the inculcation of the development of christian character. We should certainly have in our homes, besides good literature in general, the following: 1st, the Bible, the sunday school literature, published by our S.S. Brd. the Home and Foreign Mission Journals, the Orphanage Gem, and the Baptist Record. No Baptist in Miss. should fail to read the Baptist Record. We can afford

FOREIGN MISSIONS—It is with joyful note and thanks giving unto God, that so great power and blessings have crowned the efforts of our workers on the foreign fields during this year. Our missionaries report great success in their fields. The report shows that there are 380 churches, with 5,252 Baptisms, also 635 native students in our schools. More Baptisms in all the fields this last year than ever in the history of our work. Even in the hot bed of fighting of Mexico there is one church that reported 1,831 Baptisms, in China and other fields the same is true, all this is an index to what is to be done under God's guidance. Our Convention last year gave to this great cause the sum of \$587,458.97. we had hoped to raise \$646,500, but many things prevented this from being done. The debt that now hangs over our work is \$68,000 we hope to raise this in this year's work, we can if every church will only do their part for the glory of God. Great have been the achievements of the year, yet the difficulties have been more than in the history of the great work.

An Organized Campaign---Shall we have another church to church campaign this spring? your committee thinks these campaigns are productive of much good in many ways. The aim of this campaign is to reach every member of the kingdom of God.

Missionary literature---One of the greatest factors in this work is to get them to read our literature. "the Foreign Mission Journal" and thousands of tracts. The tracts are free if you will only write Dr. R. J. Willingham, of Richmond, Va. It is a real joy to note that last year there went out 15 new missionaries to different parts of the world to tell of Jesus and his love to save. we are so glad that we can have a part in this great work. what of the future?

If these new missionaries are to get support. and we are to do our part by the others, we must give more to God this year than ever in the history of our Board, or work.

Some suggestions---we pastors hold the key to the situation, and if our churches give or don't give we are to lend in it. God grant that not one church in this body will fail to give in this great cause.

How are we to do it?---1st, Get the church thoroughly aroused to the importance of every member giving to

this cause. this is done by preaching on this subject and giving out tracts. 2nd. Have a rapid and thorough going canvass of the church membership and ask every one to give more than any year of his life. 3rd. Have a strong missionary committee who will follow up subscriptions and see that all delinquents are paid as soon as possible. 4th. See that the money is sent off without delay. 5th. Work much at this and pray more—give as we pray, if we were to do this we would give more this next year than we have ever done. We can if we will, so let us will to do it for the glory of our Master who gave himself for us. May God give every church in this body His Spirit to lead us to do His full will.

Yours in His name, and for success,

W.E. Farr.

STATE MISSIONS—When we speak of State Mission we touch the foundation of all mission of the world. No building is considered a substantial one whose foundation is imperfect. As we promote the cause of state missions, improving each year, we enlarge on the other missions because we have something on which to depend. It is not wise to overlook and neglect our own State to give the more attention and support to the remote parts of the field (which is the World) for if we do we cripple the work both at home and abroad; but when we strengthen the work in the state, we do the same for the work in other fields. All our state mission work is under the direction of a committee known as the State Mission Board, and having as its Cor. Sec'y Dr. J. Benj. Lawrence, who has a greater responsibility than any other member of the Board, because of the importance of his office. Our State Convention, at its last meeting, directed that our state mission work be laid out this year on a basis of \$42,000. This is exactly the amount of our apportionment suggested by the Southern Baptist Convention to foreign missions.

So then if we follow the suggestion of these two conventions—State and Southern Baptist—we will give as much to one as to the other this year. We believe this will and should be done. Some changes were made this year by the convention board as suggested by the convention, these changes of course looking to the efficaciousness of the work were suggested in a report on state missions as published in the last State Mission minutes: The first: That the Board may be instructed to divide its work into departments such as church building, pastoral support, pastors home fund, enlistment work, S.S. and B.Y.P.U. work. Next, that the books of our con-

Then another: that we instruct our Board to institute a thorough and complete system of book-keeping, and that a fuller report of receipts and disbursement of the Board be made at the Convention. Then again that the board keep itself in constant touch and interest with the associational representatives of State missions; then finally, that we instruct the convention board treasurer, and that the report of such auditor be presented as part of the treasurers report to the convention. These instructions are being carried out by the board with gratifying results.

Under the head of pastoral support we are doing work in forty associations and assisting 195 churches. the appropriation for this part of the work is \$25,000. Under the head of church building, work is being carried on in twenty one associations, assisting 39 churches in building houses of worship. appropriation \$7,500.

Under the enlistment, we have in the field, 3 enlistment missionaries who go out in the rural districts and waste places rallying and strengthening the cause, these men are W.R.Cooper, in the Delta, J.P.Herrington, in North Miss., and Zeno Wall, in South Miss., appropriation \$6,000. Under S.S.and B.Y.P.U. work, 2 men in the field for all their time, viz: J.E.Byrd and W.E.Holcomb. appropriation \$3,500.

This total of \$42,000 with the \$10,000 debt of last yr. makes in all for us to raise \$52,000. Can We do it? Yes, we can, as loyal and patriotic Baptists of Miss., lets not fail, and we shall rejoice when we gather at the next convention, and especially so as we remember it is all the Master's work.

Respectfully,

T.D.Cox.

Baptist Orphanage.

The Mississippi Baptist Orphanage, (our home for homeless children,) located at Jackson, was established seventeen years ago. The object of this home, is to provide food, clothing, shelter and training for the unfortunate orphan children who have neither parents nor other relatives to care for them.

Since its establishment, more than seven hundred children have been cared for, for longer or shorter time. Many of them have grown up in the home and have gone out to take their places in society, many of them fulfilling useful places in the world. We have now in the home two-hundred forty children.

We believe Orphanage work to be clearly the work of Christ, and our home at Jackson certainly has the stamp of His approval; and, much has been by the united efforts of our people.

This year has been a hard one with our home. Early spring two children coming into the home, brought the measles, which spread throughout the home. There were about one hundred seventy-five cases in the home—one hundred thirty in bed at one time. But through the skillful doctoring and nursing, and blessing of our Heavenly Father, there was only one death. Owing to the burning of the school house last year, the Board, at an April meeting, ordered the erection of a brick school house, that would accommodate 300 children. This building is now ready for use. Much of the work on the house was done by the Superintendent and children to reduce cost, but with that, we had to borrow \$4500. This money must be replaced. If all our churches will come to the help of the Orphanage, this indebtedness can be easily met. We would recommend that all our Sunday Schools would adopt the plan of giving one collection per month to the Orphanage \$5 00 per month will support an orphan. We would recommend that each church in the Association make an effort to secure a contribution from each member during the month of November as a thank offering. This may be accomplished by the church through the Sunday School, B.Y.-P.U., W.M.U., and L.A.S. We learn, with sorrow, that our Superintendent has had to borrow money to buy bread for our orphan children. This ought not to be, and we trust that our people will be more liberal in the support of the Orphanage.

Let our churches, besides cash, send boxes of clothing, good second hand clothing accepted, canned goods, groceries of all kinds, syrup, shoes, stockings (mostly large ones), and any other thing that can be used in providing for our children.

MINISTERIAL EDUCATION—It is not the purpose in submitting this to speak at length of the advantages or needs of a higher educational training for our preachers, the advantages of such training we take it as to obvious to require any argument in its favor. We would say however, however, that since the preacher fills the most responsible position known to man—that of standing as God's Ambassador to the world, to expand the principles of christianity and to impress its facts upon men and lead them to accept its teachings,—above all men he needs to be highly trained. All that could be

said in favor of high educational training for the various secular callings, could be said with more emphasis for the preacher, nothing short short of the highest possible development of all the mental powers God has given him should be the aim of every one called to preach

It is of special interest to note that most of our young preachers are responding to this call to duty, and are themselves, many of whose under the most embarrassing difficulties. God, in his boundless wisdom sees fit to call into the minister many men in very poor circumstances, with limited or no educational attainments, some of these are getting up in years with families to care for. Notwithstanding these trying difficulties, almost all of these young preachers are doing all they can to train themselves for the great work to which they are called. Many of these must have outside assistance in order to attend college at all. The Board of Ministerial Education of Mississippi College is rendering some assistance to these needy ministerial students with the limited funds in its charge to take the college course. Last session 78 ministerial students attended Mississippi College, and of these, more than 40 were given some assistance by this board. The Board of Ministerial Education is badly in need of more money. The receipts are inadequate to meet present demands of the board. It has been necessary to deny some preachers entrance to the work of the college on account of a lack of money to help them. Shall it be said to the discredit of the Baptist people of Miss. that we permit a condition like this to obtain? In addition to the above this Board of Ministerial Education, for several years, has been carrying a debt of from \$2500 to \$500. To liquidate this debt and to render aid to ministerial students, the board must look to the Baptist people of Mississippi to the various Baptist Associations and churches to contribute the money with which to do it.

We would therefore recommend that this association at its present meeting, and that each church within this association at some time during the next three or three months, take an offering for the ministerial students at Mississippi College.

We would commend to the people of this association their most thoughtful consideration for, and assistance to the young preachers preparing for this great work. Aid them with your encouragement, your prayers, and your means.——E.I. Watts, chairman.

WOMAN'S WORK—A great poet has ventured to say that he was "one who never turned his back, but marched breast forward." So it has been with our great woman's work during the last year; the women who are already marching forward in gaining interest from others and in the organization of many new societies in our own association. During the Jubilee year, Southern Baptist Women have labored with great zeal and success in their contributions for the current support of the work they have made an excellent increase and in addition have given the large sum of \$71,662 as their Jubilate offering for the Judson Centennial Fund.

To Home Missions were given \$5673.72 and to other causes in proportion. Our State is wide awake; for giving to foreign missions has always tested one's loyalty to Jehovah, and nothing in the history of Southern Baptists has tested it more fully than has the Judson Centennial. Then I beg that the sisters in our own association open their eyes more fully to the great need of a Woman's Missionary Society in every church.

A beautiful story is told of Alice McKinley, niece of the martyred president, she was asked by her uncle to go to Washington and become his adopted daughter. All the advantages of the White House was offered her. She refused, saying that Jesus Christ wanted her to work for Him on a mission field.—She loved Jesus Christ—We may not love China or Japan as we should, South America or Italy; but if we love Jesus Christ supremely, we will be glad to unite our efforts in our woman's societies to enhance the work in our Father's Kingdom. Will not the women in Pearl River Association accept the blessed privilege of doing their part?

Sunday Schools—In every line of endeavor, there is a demand to-day, as never before, for efficiency. This is true in our church work as well as elsewhere and an effort is being made to enlist and to develop our churches and the individual members thereof so that they may do the most efficient service. Having in mind the development of our Sunday Schools, setting forth in a definite way just what a first class sunday school should be. In any undertaking it is well to have some standard to work by, to have some mark we are trying to reach. It gives us a definite idea of just what we want to do and gives us inspiration to press forward. In this way this Standard of Excellence has been of much value to our sunday schools. After it was adopted it was found that there were no sunday schools that had been set. Since that time a large number have tried to reach it and for the year 1913 there were sixty-six that reached it, eleven of which were in Mississippi.

We think it would be a splendid idea for all of the sunday schools in this association to get one of the A 1 charts and keep it before them all of the time just what is meant by an A1 Sunday School. To reach this standard is not an impossible task for any sunday school and we should like to see a number of the schools in the bounds of this Association reach it during the com-

ing associational year.

We desire to commend the work that has been done in the Sunday School Conventions in this Association and should like to see this work go forward with renewed interest. We desire to commend also the work of our Field Secretaries in the State and to urge that our people attend our Baptist S.S. Convention at Durant next spring, and the Encampment at Hattiesburg next Sum-

Christian Education—We believe in christian education, we believe in college education under denominational control, we believe that our children should be trained under christian influence. In the public school or children are under home influence. We parents can look after our regular welfare but when our children leave home to go to school we must depend upon the school to furnish the moral and religious influence. If the influence is not christian it will be more or less unchristian. Only the denominational school is able to furnish the adequate influence. We believe in christian education because we want the whole person educated. In denominational schools we can lay emphasis upon the training of the heart as well as the head. The young people may become spiritually strong while they are becoming mentally strong. The denominational school can teach the Bible work, peculiar Baptist doctrine and Sunday School work. College bred men and women ought to be prepared to lead in God's work. Our Baptist schools offer best training for leadership. In Miss. we have established a system of correlated schools consisting of Miss. College, Woman's College and Clarke Memorial College, all under our Educational Commission. These schools belong to Mississippi Baptists, and emphasize the highest ideals of christian education.

Hillman College and Blue Mountain are Baptist schools privately owned. Our support is due these schools. Send your boys and girls, pray for the success of our schools; contribute to the endowment, and the cause of the Master will prosper in our hands.
